Our Teaching Style:

With a combined experience of over 12+ years in the finance industry and 5+ years in Ed-tech industry, every concept in finance is 'discussed' (not just taught), such that:

-  **Concepts are learned with logic – rather than memorising.**
-  **Complex topics absorbed through scripts, games & assignments**
-  **Formulas are constructed in the classroom – not imposed**
-  **Theories are bridged with their practical applications**

HEAR FROM THE STUDENTS:

Having passed level 1 above 90th percentile after studying under Vinit sir, I can say it with utmost confidence that he's one of the most gifted and hard working teachers/mentors I've ever come across. Vinit sir has mentored me throughout my CFA journey of three years. He is extremely knowledgeable about the subjects he teaches and knows the logic behind every minute thing in detail.

- ATHARVA DIXIT, CFA 

Vinit sir is a great mentor and a dedicated teacher. His logical approach and practical applications during the lectures of CFA level 1 helped me a lot in achieving an above 90th percentile score. He ensures that all the queries of a student are comfortably solved from the base level without any hesitation. I would highly recommend him as a teacher and a mentor.

-DEVAANSH GUPTA,
CFA L3 CANDIDATE 

Vinit Sir's focus on the underlying rationale behind concepts, rather than simply textbook memorization, has significantly enhanced my learning experience. By prompting students to critically analyze the "how" and "why" of various topics, Vinit Sir fosters a deeper understanding that cannot be achieved from textbooks alone.

- SIDDHESH SALUNKE,
CFA L2 CANDIDATE 

As I journey through CFA level 1, Vinit sir motivated, guided and inspired me to reach the pinnacle. He infused the lecture with so much passion for finance and his patient explanations made accessible otherwise very complex subject matter. It was a disciplined yet fun experience to be his student. Hoping to learn more from him!

-PUSHTI SHAH,
CFA L1 CANDIDATE 

WHY CHOOSE US:

Seamless On/Offline Learning

Via our Web + Mobile app learning material powered by LMS

Get Conceptual Clarity

Through formula construction, scripts, case studies, etc.

Learn from top experienced faculty

Understand the financial world – Expert faculty from financial industry

Teaching 'How to think'

Get exam ready by learning concept inside out

Result Oriented Teaching

In-depth learning + exam tips & tricks increases your chance of passing the exam

MEET PROF. VINIT MEHTA

YOUR MENTOR

In his 12+ years of working across investment banking, corporate banking, and structured financing, what helped him succeed was the personality he got groomed into while pursuing certifications such as CA, FRM, and CFA (L2).

People get a job because the **process** of accomplishing these degree or certifications build's a persons character which is helpful to run any business in the world. That's what education does to a person – gives the ability to reason, an ability to find resolution...an ability to think.

Accordingly, his teaching philosophy goes beyond exam preparation—it's about shaping both – the intellect and the character of the student.

With Vinit Sir, learning isn't just about passing exams; it's about mastering concepts through discussions. Formulae are constructed, not memorized, and theories are bridged with real-world applications. He doesn't teach just by reading from a textbook, instead his teaching pedagogy along with his well-researched materials are designed to foster critical thinking and personal growth.

This is not a crash course to just get you by, it is the learning which will give you the ability to think, find answers, and be successful in your career.
